Summary

Computer Science student at Birzeit University with strong interests in Back-End and Full-Stack Development. Experienced in building web, mobile, and desktop applications using Java, Python, PHP, Flutter, FastAPI, MySQL, and MongoDB. Passionate about designing scalable software solutions, RESTful APIs, and database-driven applications.

Technical Skills

Programming Languages: Java, Python, PHP, JavaScript, SQL

Web Technologies: HTML, CSS, Bootstrap, REST APIs

Frameworks: Flutter, FastAPI, Node.js

Development: JavaFX, Android Studio

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Android Studio, Postman, XAMPP

Operating Systems: Linux, Windows

Concepts: Object-Oriented Programming (OOP), Software Engineering, Database Design, Data Structures, Algorithms

Technical Projects

Home Healthcare Services Platform – CARELINK

Graduation Project

GitHub | [LINK](#)

Technologies: Flutter, FastAPI, Python, MongoDB, REST APIs

- Developed backend services and database architecture for a home healthcare platform.
- Built RESTful APIs for authentication, appointment booking, notifications, and patient management.
- Designed MongoDB database models and healthcare service workflows.
- Collaborated with a development team using Git and GitHub.

Restaurant Management System

GitHub | [LINK](#)

Technologies: Java, JavaFX, MySQL, JDBC

- Developed a desktop restaurant management system using JavaFX.
- Implemented modules for customers, employees, branches, menu management, and orders.
- Connected JavaFX interfaces with MySQL using JDBC.
- Designed relational database schemas and SQL operations.

Algorithm Projects

GitHub | [LINK](#)

Technologies: Java, JavaFX, Algorithms

- Developed multiple algorithm-based applications using Java.
- Implemented Dynamic Programming and Graph Algorithms.
- Built Huffman Coding for file compression and decompression.
- Developed a world map path finder using Dijkstra's algorithm.

Education

Birzeit University

Bachelor of Computer Science

Birzeit, Palestine

Expected Graduation: July 2026
